INSTALLATION OF ANCHOR BRACKET FOR CHILD RESTRAINT SYSTEM WITH A TOP TETHER STRAP

APPLIED VEHICLE: All 1990 to 2000 MY Vehicles

SERVICE INFORMATION

Child restraint systems that use a top tether strap need to be secured to an anchor bracket.

- Nissan provides an anchor bracket assembly as a genuine Nissan accessory for all 1990-2000 models that do not have a factory installed top tether strap anchor bracket.
- Certain 2000 model year Nissan vehicles have a factory installed top tether strap anchor bracket.
- All 2001 models incorporate a factory installed top tether strap anchor bracket.

SERVICE PROCEDURE

- Check the Vehicle Owner's Manual and the anchor point in the vehicle to see if the anchor bracket is factory installed. If the anchor bracket is not factory installed, order the part number noted in the Parts Information section of this bulletin.
- Refer to the Vehicle Owner's Manual section on Child Restraints for the location and the proper installation procedure of the top tether strap anchor bracket.
- Refer to the manufacturer's Owner's Manual of the child restraint system for further safety and installation information.

PARTS INFORMATION

DESCRIPTION	PART NUMBER	QUANTITY
Plate – Tether Anchor	88894-89900	1 per anchor point location
